

## FRU Replacement (Transferring a License to a Replacement Adapter)

1. Log in to the product licensing portal ([www.emulex.com/ibm/licensing](http://www.emulex.com/ibm/licensing)) with your existing username/password combination.
2. Start the OneCommand Manager application. From the OneCommand Manager application's discovery-tree, select the replacement OneConnect adapter you want to license.
3. From the Adapter Information tab, click **Install Feature Licenses**. The Install Feature Licenses dialog box appears displaying the adapter ID. Click **Copy** to copy the adapter ID into your clipboard.
4. From the product licensing portal's View tab, locate the entitlement that is associated with the adapter being returned and check the checkbox next to that entitlement.

---

**Note:** You can verify the adapter serial number that is associated with the entitlement by clicking on the fulfillment ID. Another screen shows additional information, including the adapter serial number.

---

5. From the Support Functions drop down menu, click **Rehost**.
6. Click **Add New Device** and paste the adapter ID (copied in step 2) associated with the new adapter. The new adapter ID shows in the licensing portal window.
7. Select the radio button next to the new adapter ID and click **Rehost**. Save the license key file to your system. You also have the option to print or email the license key file.
8. From the OneCommand Manager application's discovery-tree, select the replacement OneConnect adapter you want to license. The Adapter Information tab is displayed.
9. From the Adapter Information tab, click **Install Feature Licenses**. The Install Feature Licenses dialog box appears displaying the adapter ID.
10. Using the Install Feature Licenses dialog box, enter the license key file that was saved in step 7 (or click **Browse** to locate the file) and click **OK**.
11. A dialog box appears confirming that you want to install the license(s). Click **OK**. A dialog box appears notifying you that the installation was successful.

If your existing adapter is non-functional and you cannot view its properties using the OneCommand Manager application, follow these steps to locate the entitlement associated with the adapter:

1. From the product licensing portal's View tab, click the advanced search icon . The Advanced Search page is displayed.
2. In the Custom Attributes area, select HWserialnumber from the drop down menu. Enter the serial number in the corresponding field.
3. Click **Search**. The previous screen is displayed. This screen shows the entitlement associated with the serial number or shows "no fulfillments found".
