

# Are **x86 Servers** Just a Commodity?

Watch **IBM, Intel, and Emulex** Put IT to the Test

Is x86 Memory Capacity limited? Is a 10GbE Infrastructure worth it?

Can you save money by investing in new hardware?

Can you really do more with less?

**Come see for yourself on  
May 24, 2010 in San Francisco!**

The W San Francisco  
181 3rd Street, San Francisco, CA

*Special Guests  
**Jamie Hyneman**  
and **Adam Savage**,*

*Join us as we interview  
Special Guests Adam Savage  
and Jamie Hyneman*
