

Searching the Emulex Knowledgebase for answers

- Click on the **KNOWLEDGEBASE** link in the left menu.
- Enter a keyword.
- Select a topic to limit the search. Note: You can do a topic search without a keyword.
- Click **Search**.
- Your results will be displayed below the search form. The results are divided between search results and relevant FAQs (**F**requently **A**sksed **Q**uestions).
- Open a result or FAQ by clicking on the title.
- If you have more than five search results there will be **Previous** and **Next** links to move between pages.
- To close a search result or a FAQ click the **close** link. You can also print the search result or FAQ by clicking on the **print** link.
